

# USE THESE 'QUICK SET-UP TIPS'

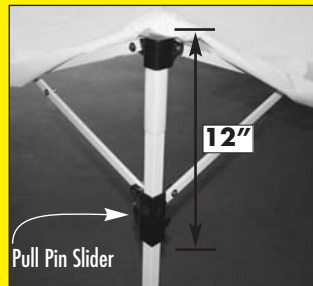

**IN CONJUNCTION WITH YOUR NEW E-Z UP® INSTANT SHELTER® OWNER'S MANUAL**

## **Hint 1.**

With partner on opposite side of shelter, grasp the top and bottom of the diamond shaped area of trusses on opposite sides. Lift up and step backwards until shelter is fully opened.

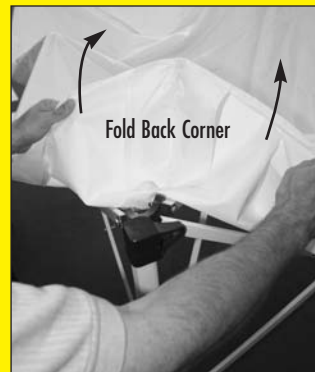

TRY TO ENSURE THAT THE PULL PIN SLIDERS ARE AS CLOSE TO THE TOP OF THE SHELTER AS POSSIBLE BEFORE ENGAGING. NOT TO EXCEED 12".

## **Hint 2.**

Before Engaging the 4 Pull Pin sliders, pull the top's fabric corners away from the frame on all 4 corners.

(This may eventually become unnecessary as the fabric top stretches with repeated use.)

IF YOU HAVE ANY QUESTIONS OR NEED ASSISTANCE, PLEASE CONTACT OUR CUSTOMER SERVICE DEPARTMENT.

### Hint 3.

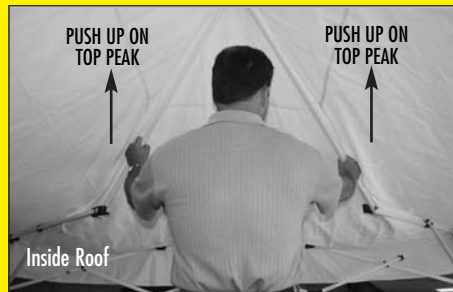

With partner, each move to a corner on the same side, Simultaneously lift each leg off the ground to about shoulder height.

PUSH up on truss while holding down on top of leg with other hand until Pull Pin Slider engages. Pull down corner of top and attach to frame, repeat on remaining legs.

### Hint 4.

To aid Pull Pin Slider engagement, you may ask your partner to push up on the top peak truss on the inside of the shelter, while you engage the Pull Pin Slider, shown in Hint 3.

### Take Down

### Hint 5. VERY IMPORTANT.

Support Arms MUST be removed before disassembly and secured by relocating to the opposite truss using plastic bracket, or DAMAGE WILL OCCUR AND VOID YOUR WARRANTY!

IF YOU HAVE ANY QUESTIONS OR NEED ASSISTANCE, PLEASE CONTACT OUR CUSTOMER SERVICE DEPARTMENT.
